

Affidavit of Mark Jaworski

As an employee of the State of Indiana, I am a Senior Environmental Manager with the Indiana Department of Environmental Management, Site Investigation Program of the Federal Program Section. Under a cooperative Agreement with the U. S. EPA, I assess potential hazardous waste sites under the auspices of the Comprehensive Environmental Response Compensation Liability Act (CERCLA) that may pose a threat to human health and the environment.

On June 2, 2015, I had a telephone conversation with Kraig Cummings, Citizens Energy Group. Mr. Cummings stated that the well screens installed in their municipal wells are placed at the bottom of the well. He also stated for the Riverside wells, water production from the Riverside wells is from the bottom of the casing to the bottom of the well.
